PROFESSIONAL SUMMARY

Third-year Bachelor of Computer Applications student and aspiring Java Developer with hands-on experience in Spring Boot, MySQL and REST APIs, currently interning on computer vision models. Strong foundation in Data Structures and Algorithms and Object-Oriented Programming, with 100+ LeetCode problems solved. Seeking an entry-level Java or Software Developer role.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python
- **Backend:** Spring Boot, Spring Security, JSON Web Token (JWT) Authentication, REST APIs, Hibernate, Java Persistence API (JPA), CRUD Operations
- **Computer Vision & Libraries:** OpenCV, NumPy
- **Database:** MySQL, SQL
- **Frontend:** HTML5, CSS3, JavaScript (Basic), Responsive Web Design, React.js (Basic)
- **Core Subjects:** Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems
- **Tools:** Git, GitHub, VS Code

INTERNSHIP

Software Developer Intern (Computer Vision) – Source Soft Solutions Pvt. Ltd. Oct 2026 – Present
Remote (Work From Home) | *2-month internship*

- Working on computer vision models using Python, OpenCV and NumPy under the guidance of the team.
- Learning and applying the model pipeline: dataset creation, image annotation and model training.
- Contributing to assigned projects while following professional development practices and timelines.

PROJECTS

Person Detection & Tracking – Computer Vision Model
Tech Stack: Python, OpenCV, NumPy

- Trained a person detection model on a custom annotated dataset and developing it into a reliable tracking system.
- Focused on keeping each person's tracking ID consistent across frames, without losing or switching IDs.
- Designing the pipeline to generalize to new, unseen videos rather than being tuned to specific samples.

ShopSphere – Full Stack E-Commerce Web Application
Tech Stack: Java, Spring Boot, MySQL, Spring Security (JSON Web Token), Hibernate, Java Persistence API, REST APIs, React.js

- Built a secure e-commerce application with JSON Web Token authentication and Role-Based Access Control using Spring Security.
- Developed product, cart, checkout, coupon and order management modules plus an admin dashboard.
- Designed RESTful APIs and handled data persistence with Hibernate and Java Persistence API on a MySQL database.

EDUCATION

Bachelor of Computer Applications – GLA University, Mathura 2024 – 2027
Cumulative Performance Index: 8.5
Class XII – Percentage: 85.6% 2024
Class X – Percentage: 66% 2022

ACHIEVEMENTS & ACTIVITIES

- Open Source Contributor – GirlScript Summer of Code 2026.
- Won 1st Prize in Java TechQuest Competition.
- Solved 100+ Data Structures and Algorithms problems on LeetCode.
- Participated in a university-level hackathon focused on innovative problem-solving.
